A flexible solution for your busy schedule

American Taekwondo Association

Since the first class was taught many years ago, the focus of our program has remained the same: to provide students the highest quality martial arts instruction available in a safe and positive learning environment that people of all ages can enjoy. Our instructors combine excellent student instructor ratios with state of the art training facilities. This has helped establish Edge ATA Martial Arts as one of the leaders in the martial arts industry. Mr. and Mrs. Edge are graduates of an instructor program that represents more than thirty years of research and development. They will be with you every step of the way to help you reach your individual goals (and maybe even reach some new goals you never before thought possible).

Transportation

Participants will be carried from their school to our Academy in a new 15-passenger van. Students will change into their uniform and prepare for their daily martial arts class.

Martial Arts Class

During the Martial Arts class students will learn the same techniques as our evening students and will even be eligible to test for new belts every 8-10 weeks.

Snack

After a hard day at school and martial arts training, kids will need nourishment! We will be ready with a **HEALTHY** snack and bottled water to replenish those vitamins, minerals, and electrolytes.

Learning Center

Kids will stay for the remainder of after care in our new learning center. Here they can finish homework, read, or enjoy kid-friendly games until parent pick-up.

Wouldn't you like more from an after school program?
